Sunday was a real summer day, some places the glass registered 76 degrees.

After the delicious dinner was served, the rest of the evening was spent with music and conversation for the elders, and games for the younger members of the party. Margaret Morse treated the guests to maple syrup of a high quality, made from sap gathered from the maple trees on the lawn.

About forty people have taken advantage of the free vaccination during the past week.

The village has been breakfasting on delicious grapefruit, grown in the Dufferin orchard in St. Petersburg, Florida. The box of delicious fruit was sent to Mrs. F. B. Rounds by Mr. and Mrs. Eugene Dudley.

BROWNFIELD

Meeting of Woman's Club—Work on State Road.

The Brownfield Woman's Club held its regular meeting, Thursday, April 11th, at the Congregational church. The Rev. C. W. Eliopoulos gave a splendid talk on "The Holy Land" which was very much enjoyed by the club members. The roll call was "Quotations from Psalms." Sidney Walker is slowly regaining his health.

There are several cases of measles in town. Mr. Crabtree is sick at this writing. Something unusual for him.

Mrs. Day has recovered from the measles and is back driving the school team. This section of the State Road is in quite good shape, this side of the Frye woods. But places through the Frye woods, the road is almost impassable. Several cars got stuck in the mud there the 8th. The State has several trucks and a number of men repairing the road here as fast as possible, but the frost is coming out of the ground and at best they can make but slow progress.

"View Farm" has her incubator set for the second hatching. She already has around two hundred chickens, hatched from the first setting.

If Gov. Brewster and council took only \$6,500,000 more than was appropriated they certainly should be complimented. The governor traveled much and talked big of the scenic beauty of Maine!

The first of the orders for posters calling attention to the opening of the pavilions was received Saturday from Howard W. Shaw. He will run dances this season at the Locke's Mills Pavilion every Saturday night, beginning with the Grand Opening on May 4th. Dancing will begin at 8:30 sharp.

Eben S. Kilborn and wife of Albany and Portland, who have been at St. Petersburg, Fla., have gone to Hot Springs National Park, Arkansas and are stopping at the New Arlington Hotel. Mr. Kilborn is being benefited by the baths and agreeable company.

Jim Walker: "If you go a smelting in water running into Sebago you must have a license. Send to Augusta and get one or don't venture to dip smelts. It won't be safe." Many wardens are watching out.

Bro. L. J. Pendell of Caribou is in a bad state of mind. Listen to what he says editorially in his paper, the Aroostook Republican:

"Pharoah made many promises to the Children of Israel, but in each instance 'hardened his heart.' We are giving up a wonderful franchise to a foreign corporation for practically no return, especially in comparison with the vast treasure we relinquish. We are despoiling Nature's handiwork, throwing hundreds out of employment, driving others from their homes where they have lived for years, and putting camps, guides and business places out of commission."

And hear him again and this may have something to do with his arriving at the above conclusion:

"One of Caribou's citizens has owed the Republican a fairly good-sized bill for several years. A statement of account was sent him on January 1st of this year. On March 1st the man came into the office, inquired the exact amount of his indebtedness, and then kindly informed us that he would pay us the first of April, and he did—he kept his word. For in Monday's mail we received a bankruptcy card. The man kept his word—he paid, and we lose enough to have purchased a new spring suit of clothes. Of course we looked upon the card as an April fool joke—rather an expensive one for us, however."

We feel sorry for Bro. Pendell and hope it is only a passing attack of Spring jaundice.

"The fish that broke my line Thursday must have weighed 30 pounds," said John Woodman. The line was tested to stand a 25 pound strain.

Farm Management Meetings

Pictures Showed Workings of Six Farms in the State, New Enterprises

Farmers who attended the Farm Management meetings held in South Paris and Norway on Thursday and Friday of last week felt well repaid for their time spent. In the morning Donald W. Reed, Farm Management Demonstrator for the Maine Extension Service, took the men on a tour of six farms over the State with a series of lantern slides showing practices followed in these six farms which resulted in a substantial increase in the labor income over a period of five years from 1922 to 1927. The afternoon was taken up with a real analysis of the farming business in and around the community and the actual receipts and expenditures necessary to carry on these farm operations. Many points were brought out in the discussion.

The farmer is positively up against it if he does not have at the present day something besides the average working knowledge which was sufficient to keep the wolf from the door only a few years ago. Practically the only solution of the problem seemed to be more volume of business. Poultry was suggested as one of the best enterprises at the present time to bring up the labor income.

One of the important points brought out was that total receipts on a one man farm must equal somewhere between three and four thousand dollars to make a thousand dollar a year labor income. This can only be brought about by increasing on present farm enterprises or the addition of a new enterprise.

Meetings to be held by Donald H. Ridley, County Agent, during the next two weeks are as follows:

April 8—North Lovell.

April 12—Canton.

April 13—Sumner.

April 16—North Ramoth.

April 17—East Bethel.

April 18—Andover.

Some men give their friends sure thing tips on the principle that misery loves company.
